SUMMARY

Frontend engineer with 5+ years building React and Next.js products in TypeScript. As Senior Frontend Engineer at Adabra I worked with the Stackly agency platform and built its GrapesJS page and funnel builders with 30+ templates, in-editor AI and a 10-report CRM suite. Built OneFeeOKR's real-time Next.js product.

TECHNICAL SKILLS

Frontend: React, Next.js (App Router, SSR/ISR), TypeScript, JavaScript, HTML, CSS, Tailwind CSS, GrapesJS, WordPress
State & data: Redux Toolkit, Zustand, optimistic updates, Supabase Realtime, Socket.io, REST, GraphQL (Apollo), Zod
UI & quality: Component libraries, design tokens, responsive & accessible UI, dark mode, SSR for SEO, Jest, RTL
Tools & backend: Git, CI/CD, Vercel, Netlify, Docker, Jira · Node.js, Express, PostgreSQL, Supabase, MongoDB, PHP

EXPERIENCE

Senior Frontend Engineer · Adabra
Jun 2024 – Oct 2026

Remote · Dubai, UAE · promoted from Associate · Stackly case study

- Worked with the Stackly agency platform (settings, workspaces and modules) in React, Vite and TypeScript; built the Pages, Funnels, CRM reporting and Clients/Projects UIs and introduced Redux Toolkit.
- Engineered the GrapesJS page and funnel builders: drag-and-drop sections, interactive blocks, custom video handling, inline rich-text toolbar, layers, motion, device previews and publishing.
- Shipped 30+ page templates and 17 funnel step types with their own templates, plus a custom editor for Projects/Clients.
- Integrated Magnus Intelligence (AI) across the builders: prompt-to-page in standard and 3D layouts, section generation, file and image context.
- Built the CRM reporting suite: 10 report types, each with an 8–10 step builder (filters, metrics, 5 chart types).

Software Engineer · Smart Engineering & Design Solutions
Jul 2023 – Jun 2024

Islamabad, Pakistan · On-site · 11 TryHackMe sites live

- Built the React/Redux frontend of a multi-store retail platform across 10–15 modules, keeping data-heavy dashboards fast with normalized state and memoized selectors.
- Built 40+ interactive TryHackMe training sites from content specs (HTML, CSS, JavaScript): an x86 emulator, SIEM and firewall simulators, quiz games.
- Fixed bugs and shipped features via Jira for EmpowerCRM (healthcare staffing) and built client WordPress/PHP sites.

Software Engineer Intern · Pixako Technologies (Pvt.) Ltd
Feb 2023 – Jul 2023

Islamabad, Pakistan · On-site

- Built 2 management systems in Next.js and SQL, incl. an employee attendance system with biometric-style check-in.
- Built a reusable React component library; added Next.js SSR for SEO and first paint and GraphQL (Apollo) dashboards.

Freelance Full-Stack Developer · Self-employed
2020 – 2024

Remote · part-time, during university and on weekends

- Delivered paid client projects end to end: e-commerce stores, management systems, CRMs, scrapers and landing pages in MERN, Next.js, WordPress (4+ sites), PHP and Python.

PROJECTS

OneFeeOKR · OKR SaaS with one flat fee per company · solo build · 2026

Live site | Live preview (no signup) | Case study

- Built the whole interface solo with Next.js 16, React 19 and Tailwind CSS v4: dashboards, alignment tree and zoomable map, check-ins, cycle review, PDF reports and a coach console.
- Real-time collaboration via a Zustand store with optimistic updates over Supabase Realtime; reusable UI kit with design tokens, skeletons, dark mode and mobile navigation.

Stack: Next.js · React · TypeScript · Tailwind CSS · Zustand · Zod · Supabase · PostgreSQL · Netlify

EDUCATION & MORE

BS in Computer Science · University of Southern Punjab, Multan · Oct 2018 – Oct 2022

Certification: MERN Stack Development (PSEB) · Languages: English (professional), Urdu (native), Punjabi
